TO

Whom it may concern,

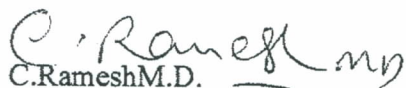

This is to state that I know Mr. George Esho the owner of Liberty pharmacy, Detroit. He has been very instrumental in providing medications to my office patients. He was particularly helpful with special packaging of medications which made it easy for me to monitor for compliance. He also helped on a number of occasions by providing free medications when the patient lost medications. Families got to know him on personal basis.

He continues to play a vital role in my Saturday clinic which is basically consists of chronic schizophrenic population .with his help I am able to keep over 20 of my chronic patients who were repeatedly getting hospitalized out of the hospital for over 13 years.

I find him extremely reliable and compassionate and committed to helping patients whenever he can.

I recommend him to any program with out reservation. I can be reached at 586 573 5300 during business hours. Thank you

Yours truly,

C.Ramesh M.D.
